

NEW YORK STATE DEPARTMENT OF HEALTH

RFP AMENDMENT 1

DATE OF AMENDMENT: JANUARY 26, 2009

A Request for Proposal for

Replacement Medicaid Data Warehouse (MDW)/OHIP Data Mart
Operational Support

RFP Number:

FAU 0711050248

This amendment is being provided to correct an error in Section XIII.I.2.2. Proposals must include 27,000 hours per year for System Change Management available during Year 1 of the contract. This is reflected in the instructions for the Pricing Proposal and in the Pricing Schedules that must be submitted.

The amended wording of Section XIII.I.2.2:

XIII.I.2.2 System Change Management Pricing

The Contractor shall be paid up to, but not in excess of, the system change management price, as presented in Pricing Schedules D.1 through D.6 of the Contractor's proposal, for each applicable year. These monthly payments made by NYSDOH will be variable and based on the actual hours spent by Contractor System Change Management staff working on completed NYSDOH-approved projects that are not within the scope of this RFP and the hourly rates in Pricing Schedules D.1 through D.6 appropriate to the staff and contract year.

- **Contract Year 1 (Contract Start Date Through June 30, 2010)** - The first contract year is expected to be devoted primarily to design, development, and implementation of the Medicaid Data Warehouse. This does not preclude the use of System Change Management to further enhance the system during Contract Year 1. Activities on these NYSDOH-approved projects, performed by System Change Management staff, will be paid for using the rates presented in Pricing Schedule D.1 of Attachment N.
- **Contract Years 2 Through 6 (July 1, 2010 Through June 30, 2015)** - The System Change Management Price includes the cost of activities on NYSDOH-approved projects as performed by designated System Change Management Staff presented by the Contractor in Pricing Schedules D.2 through D.6 of its proposal.
